Green AURA

# Regional Energy Agency North

Project partner in **Green AURA**

PERSISTENCE  
CONSISTENCE  
RELIABILITY

# About us

- Established in 2009
- Founded by EACI and cities of Varazdin, Virovitica and Koprivnica
- Located in Koprivnica
- Staff: 9 employees
- Main role: support to local/regional governments, SMEs, citizens both in rural and urban areas with focus on renewable energy sources, energy efficiency and rational usage of energy

# Mission and Vision

- Our mission is to use different tools to promote renewable energy sources, energy efficiency and rational usage of energy in a way of leading and supporting all stakeholders in implementation of projects aiming at sustainable development
- Our vision is to be one of the key stakeholders in creation and implementation of the sustainable energy system in Croatia

# We are experts in different fields

- Energy and climate planning at the local and regional level
- Project feasibility studies
- Sustainable construction and energy renovation
- Public lighting
- Procurement of innovation and green public procurement
- Innovative solutions for energy systems and smart cities
- Sustainable mobility
- Application of different financing models for energy efficiency and renewable energy projects

# EU projects

# Recognitions

- National level
  - Croatian Green Building council award
  - Reconstruction of the year 2019
- EU level:
  - Procura+ Award
  - Innovation procurement of the year 2020

# The aim of the establishment of the first Croatian Living lab for outdoor lighting

Creating an environment where **partners** will have the conditions to test, compare and promote their products, and **users** can try and evaluate their products in the real environment

# Aims and activities in Green AURA

- Expand our existing Living Lab with AR solutions
- AR study tour Koprivnica
- Improve knowledge of energy efficient solutions
- Involving Q-helix actors

Regional  
Energy
